

BEC COMPANY PROFILE

BEC has been formed through the joining together of some of the leading experts in the specialized field of slip-form and jump-form construction, heavy lifting operations and the design of high rise structures.

BEC management has over 171 years combined experience in the construction industry and has been involved in some of the most prestigious contracts throughout Asia and the rest of the world.

Our narrow field of specialization ensures all our clients receive the very best advice tailored to their needs with future maintenance considered. We adopt a flexible approach to suit your budget and programme with a full design and build (Turnkey) capability if required.

We specialize in:

- Slip-form construction – chimneys, tanks & silos
- Jump-form construction – chimneys, tanks & silos
- Flue linings - brick, refractory, wallpaper, borosilicate glass blocks
- Heavy lifting operations
- Chimney inspection, maintenance & repair
- Tank & silo inspection, maintenance & repair
- Demolition – chimneys, tanks & silos
- Emission studies
- Project management
- Design & detailing

What do we offer?

- An efficient, competitive and quality service geared to clients' satisfaction
- The knowledge and experience of some of the leading experts in this field of construction
- Solutions that consider future maintenance
- A flexible approach to suit your budget and programme
- Complete design and detailing capability
- Safe and value for money construction
- A qualified IRATA certified team

Over the past 9 years BEC has built up an enviable list of satisfied customers.
