

Balanced Engineering & Construction Pte Ltd

SAFETY SUPERVISOR

Balanced Engineering & Construction Pte Ltd specialises in the design and build of industrial and commercial chimneys and silos. BEC is a market leader in this highly-specialised field, with an impressive track record. Due to award of a new project in Quang Ninh Province, we are now looking for suitable candidates to join our team In Vietnam.

Responsibilities:

- Safety supervision on site
- To support Safety Manager and Project Manager on all safety and health matters
- Prepare and maintain all documentation relating to HSE
- To communicate safety standards and requirements to all site employees
- Provide safety related training to employees if required
- Carry out inspections and identify safety lapses and improvements required
- Carry out daily tool box meetings
- Attend safety meetings and liaise with relevant parties on all safety related matters
- Investigate and prepare reports on incidents relating to safety
- Co-ordinate safety trainings and requirements

Requirements:

- Must possess relevant safety certificates recognised by authorities in Vietnam
- Must be fully conversant with all safety requirements on construction site
- At least 2 years experience in safety supervision on construction sites
- A diploma or degree in any related field
- Must have good communications skills
- Fluent in written and spoken English and Vietnamese
- Must be computer literate
- Fit and healthy and not afraid of heights
-

Interested applicants who meet the above are invited to write in with detailed resume stating qualifications, work experience, current and expected salary to hr@be-con.com
